This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE TOWN OF NEW BRAINTREE, Worcester County, was established as the District of New Braintree, January 31, 1751, from the common land called New Braintree and a part of the Town of Hardwick.

August 23, 1775, the District was made a Town by general act.

June 10, 1791, bounds between New Braintree and Brookfield were established, and a part of each town was annexed to the other town.

March 8, 1792, bounds between New Braintree and Brookfield were established, and a part of each town was annexed to the other town.

June 10, 1814, a part of New Braintree was annexed to Hardwick.

Population by Census: 1765 (Prov), 594; 1776 (Prov.), 798; 1790 (U.S.), 939; 1800 (U.S.), 875; 1810 (U.S.), 912; 1820 (U.S.), 888; 1830 (U.S.), 825; 1840 (U.S.), 752; 1850 (U.S.), 852; 1855 (State), 775; 1860 (U.S.), 805; 1865 (State), 752; 1870 (U.S.), 640; 1875 (State), 606; 1880 (U.S.), 610; 1885 (State), 558; 1890 (U.S.), 573; 1895 (State), 542; 1900 (U.S.), 500.

EXPLANATIONS.

1. WHEN places other than New Braintree and Massachusetts are named in the original records, they are given in the printed copy.

2. In all records the original spelling is followed.

3. The various spellings of a name should be examined, as items about the same family or individual might be found under different spellings.

4. Marriages and intentions of marriages are printed under the names of both parties, but the full information concerning each party is given only in the entry under his or her name. When both the marriage and intention of marriage are recorded, only the marriage record is printed; and where a marriage appears without the intention recorded, it is designated with an asterisk.

5. Additional information which does not appear in the original text of an item, i.e., any explanation, query, inference, or difference shown in other entries of the record, is bracketed. Parentheses are used only when they occur in the original text, or to separate clauses found there — such as the birth-place of parents, in late marriage records.
